PROJECTS

WEB DEVELOPMENT PROJECT - SMALL COMPANY WEBSITE

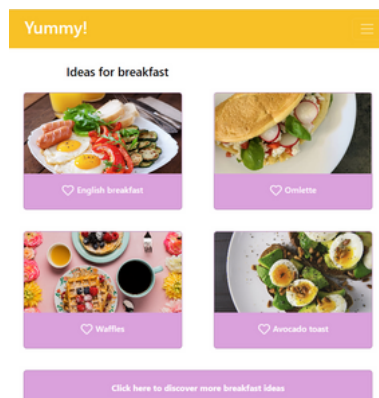

kubiproducentmebli.pl

- Developed a professional and user-friendly website for a small Polish company (KUBI - producent mebli) using React and React-Bootstrap.
- Successfully launched the website, contributing to an enhanced online presence, and increased customer engagement for the company.
- Collaborated with the company's stakeholders to understand their requirements and implemented a design that effectively represented their brand.
- Integrated Leaflet maps with other front-end technologies, such as HTML, CSS, and JavaScript, to create an engaging user interface.
- Integrated Email.js API to send form submissions directly to the recipient's email address.
- Ensured the project's usability on mobile devices by implementing a responsive design approach.

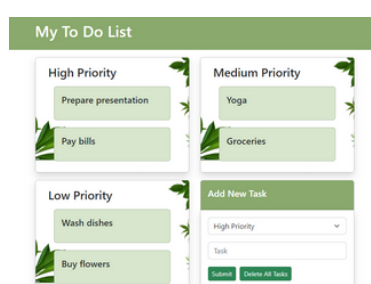

YUMMY - RECIPE SHARING APPLICATION

- Collaborated with the backend developer to define and implement the necessary endpoints and functionality required for the application's features.
- Successfully integrated the frontend and backend components, resulting in a fully functional and interconnected application that leverages the power of React and React-Bootstrap on the frontend while utilizing backend resources for data management and processing.
- Implemented user registration functionality allowing new users to sign up and create unique accounts.
- Users can click on a like button associated with each recipe.
- The interface adapts to different screen sizes, providing an optimal user experience on both desktop and mobile platforms

TO DO LIST

- Project created with React and React-Bootstrap, it involves creating a user interface where users can add, view, update, and delete tasks.
- The project uses React to manage the state of the tasks and render the components.
- The project uses React-Bootstrap to provide responsive and customizable UI components.

ABOUT ME

I am a self-taught front-end developer who is disciplined and ready to continuously develop my programming skills. I am able to work both as part of a team and independently when necessary. Apart from programming, I have a passion for foreign languages, and enjoy travelling.
